STUDENT SERVICES

[Student Affairs Podcast: Listen to the Premiere Episode](#)

August 23, 2021 • by Jen Toof

We've launched a new podcast and we're excited to share it with you! "Conversations with Student Affairs" is managed and produced by the Student Affairs team at Penn State World Campus in collaboration with our many colleagues and partners across the University's Student Affairs teams.

NEW PROGRAM:

[New online electrical engineering certificate offers full course flexibility](#)

The nine-credit certificate is being offered online through Penn State World Campus in partnership with the Penn State Harrisburg School of Science, Engineering, and Technology and the Penn State Department of Electrical Engineering.

The certificate is designed for working engineers interested in transitioning to electrical engineering or electrical engineers looking to advance in the field. The certificate can be completed in one year or less, said Robert Gray, associate professor of electrical engineering at Penn State Harrisburg and professor in charge of the online program.

Students will choose courses from disciplines including electronic communication systems, electromagnetics, control systems, signal processing, and power systems.
