### **Build the Groundwork to Become a Leader in Technology at Pace University.**

As one of the nation's first dedicated schools of computer science and information systems, Pace University's Seidenberg School has always believed in the potential of technology to change the future.

Today, we offer a suite of online computer science and information systems master's programs that include specialization options and access to cutting-edge virtual labs.

Choose from five of our distinguished degree programs:

- [Computer Science](#)
- [Cybersecurity](#)
- [Data Science](#)
- [Information Technology](#)
- [Software Development and Engineering](#)
