**FREE WEBINAR**

## IDENTIFYING, ADDRESSING AND MITIGATING MICROAGGRESSIONS IN THE WORKPLACE

*Microaggressions are “More insidious than those moments of outright hostility...are the constant, low-level reminders that you’re different...Even when you feel like you belong, other people’s reactions—even stares and offhand remarks—can make you feel that you don’t.”*

- Celeste Ng, *Everything I Never Told You*

### **This Webinar is free and open to the public.**

Microaggressions, whether intentional or unintentional, are subtle and often directed at marginalized groups through language and behaviors. In this webinar, participants will learn how to recognize, address barriers, and facilitate dialogues about microaggressions to foster an inclusive organizational culture.

### **In this webinar you will:**

- Identify and mitigate microaggressive behaviors in the workplace
- Recognize language and interactions that are prejudicial to others
- Reflect on the role you play to promote or dissolve microaggressions with peers or supervisors
- Explore how microaggressions have become normalized in the workplace and ways to counter it

#### **DATE**

Tue, Apr 25, 2023  
11:00 AM - 12:00 PM PT
